

Smoke Outlook

South-Central New Mexico - South Fork and Salt Fires

6/25 - 6/26

Issued by Wildland Fire Air Quality Response Program on June 25, 2024 at 07:03 AM MDT

Fire

The South Fork Fire is 17,551 acres and 54% contained; The Salt Fire is 7,947 acres and 38% contained. Further information on each fire is available at inciweb.nwcg.gov.

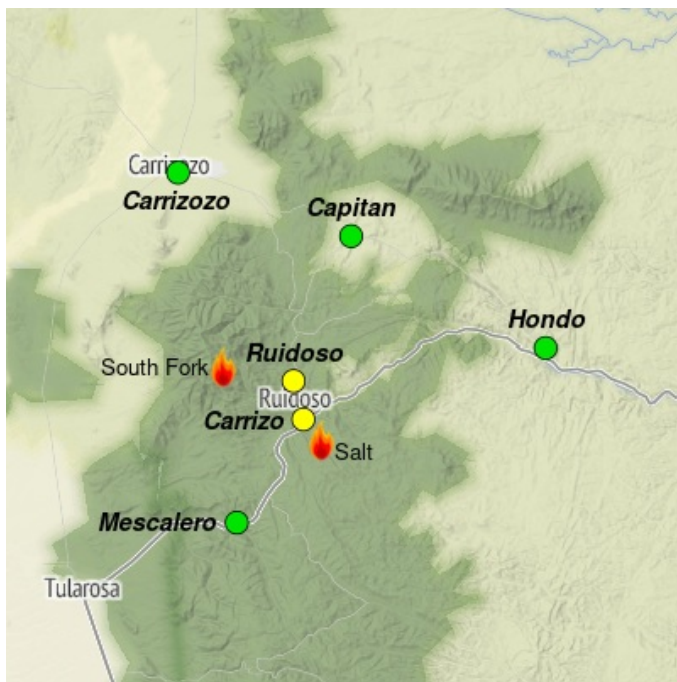

Smoke

Smoke will continue to have the biggest impact during the late overnight and morning hours for areas near the fires such as **Ruidoso, Carrizo, and Ruidoso Downs**. **Air quality may be UNHEALTHY FOR SENSITIVE GROUPS at times during the morning**. Light smoke will continue to impact Capitan, Hondo, and nearby areas with brief MODERATE air quality conditions at times. Elsewhere, such as Carrizozo and Mescalero should see GOOD air quality with minimal smoke impacts.

All areas should see GOOD air quality during much of the afternoon and evening hours, especially if showers or storms are overhead. Showers or storms nearby though could create gusty and erratic winds which could push smoke in any direction causing brief air quality impacts to any location.

Smoke Safety

Smoke will continue to impact air quality, especially for those near the fires. Take precautions when smoke is present by limiting outdoor activities, staying hydrated, and/or wearing a mask (N95 or P100). Precautions are especially important if you are sensitive to smoke. **If you smell smoke, you are breathing smoke.**

Daily AQI Forecast* for Tuesday

Station	Yesterday hourly			Mon 6/24	Comment for Today -- Tue, Jun 25	Forecast*	
	6a	noon	6p			Tue 6/25	Wed 6/26
Carrizozo	No hourly data				GOOD air quality expected with minimal to no smoke impacts.	●	●
Capitan				●	Light smoke and MODERATE air quality at times, but GOOD overall.	●	●
Hondo	No hourly data				Light smoke and MODERATE air quality at times, but GOOD overall.	●	●
Ruidoso				●	Smoke continues during the overnight into morning with MODERATE to USG AQI.	●	●
Carrizo				●	Smoke continues during the overnight into morning with MODERATE AQI.	●	●
Mescalero	No hourly data				Air quality expected to remain GOOD with minimal smoke impacts.	●	●

Issued Jun 25, 2024 by Jayson Prentice, Air Resource Advisor (Jayson.Prentice@ks.gov)

Air Quality Index (AQI)	Actions to Protect Yourself
● Good	None
● Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.
● USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.
● Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.
● Very Unhealthy	Everyone should avoid prolonged or heavy exertion.
● Hazardous	Everyone should avoid any outdoor activity.

*Disclaimer: This forecast is based on fine particulates only; ozone is not included. Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
