

# VIRTUAL MEDICAL VISITS ARE FREE\*

Teladoc Health connects you with 24/7 access to care for many non-emergency illnesses, even when you can't get an appointment with your primary care doctor due to home displacement or medical offices being temporarily closed.

Individuals in the Counties of Otero and Lincoln who have been displaced or who cannot access medical care as a result of the fires can seek treatment from a licensed health care professional for any non-emergency illness by calling Teladoc Health directly. Individuals seeking physician authorization for prescription refills of non-narcotic drugs can also get assistance. For emergencies, patients should call 911.

## 855-225-5032

\*\*Free Teladoc telemedicine visits are available for a limited time only. For the most current information regarding the availability of free visits, please visit our website or contact customer support.
